SPORTSMAN'S CODE

A few thousand years ago when a man took his weapon and went out looking for game, it was no one else's business how he did it. This is no longer the case. The hunter is no longer a savage. The privilege of enjoying the wonderful sport of hunting carries with it serious responsibilities that a true sportsman will not ignore. We urge you to subscribe to this SPORTSMAN'S CODE.

- Obey the Game Laws.** They represent the best program our legislators have been able to devise to preserve the continuance of this wonderful sport for next year and the years to come — for all of us.
- Be Adequately Armed for the Game You Are Hunting.** Hunt only with a mechanically safe firearm of sufficient power for the use intended. Then bear in mind the ability of that gun to inflict injury to others and yourself.
- Respect the Rights of Property Owners.** All your hunting will probably be done on someone else's land. Put yourself in the landowner's position: wouldn't you like to be asked if it's all right to hunt on your land? A few destructive hunters can spoil a fine privilege for everyone else. Stay clear of farm buildings, farm animals, farm children. Lumbermen and woodcutters have a right to be in the woods, too.
- Extend Courtesy to Your Fellow Hunters.** You've probably watched a good hunting dog honor another's point. A good hunter should surely be at least courteous. Give the other fellow plenty of room to work in.
- Aim Only for a Clean Kill.** A deer is a beautiful, sensitive animal as well as a wary, intelligent prize. **Never shoot at a deer unless enough of the animal is clearly exposed so that you can hit a vital spot.** A snap shot at a distant flash of a deer's tail will probably result in either a miss or a wounded deer wandering off to die a slow, wasted, agonizing death. Or you may find you've shot another hunter. Don't have either on your conscience.
- Never Forget - Guns Don't Kill by Themselves. Always Remember — Practice Hunter Safety.**

THIS FOLDER CONTAINS:

The fish and game laws — Title 12, Maine Revised Statutes, chapters 301 to 335 — and additional material of interest to the sportsman.

NOTES ON THE 1974 REVISION

These rules and regulations have been printed as a folder rather than a booklet, for two reasons: First, printing time is cut considerably, and the regulations can be made available much earlier than if a booklet were produced. And second, a considerable saving in printing costs is realized, as inserting the full-sized Management Units map in a small booklet would be costly.

The general summaries carry statements that have been condensed to make them easier to read; the section numbers of law which they refer to are indicated in parentheses at the end of the statements, but the legal wording has been dropped from this folder.

Condensed statements that may require reading of a longer section will include a reference ("See section ----"), and the section referred to will be found in the folder.

The index will refer to topics both by section number and by panel number. Panel numbers are indicated at the left of each panel.

HUNTER CHECK STATIONS

The Fish and Game Department's wildlife biologists operate several hunter check stations during the deer season, and information collected here is important in determining regional herd productivity, condition, and sex and age ratios. We suggest that whether you have been successful or not, you stop in at one of these stations, which are not registration stations. You will receive facts and figures from last year's hunting season, and the information you provide will be a basis for management decisions to be made next year, dependent on the over-wintering conditions.

A WARNING ABOUT HUNTING ACCIDENTS

Fatal accidents frequently involve experienced hunters, who may be overanxious to bag their deer or other game. These accidents are classified under the heading "Mistaken Identity." There isn't any need for them to occur if every hunter will wait until he is sure of his target. Experienced hunters usually hit what they aim at, and when human lives are at stake, they should be absolutely certain they are shooting only at game.

The "Ten Commandments of Hunting Safety" point out the pitfalls which cause accidents. Memorize them and live by them in the woods and fields of Maine.

Proper color of hunting clothes can play an important part of a safe hunt. Scientific tests, plus our own accident records, show fluorescent hunter orange to be the most protective.

ON BEING LOST

First of all, don't get lost. Get a good map of the country you will be in and STUDY it. If you don't know how to use it, and a compass, do not go into the deep woods except with a guide or companion who does know these details.

Secondly, take time to notify a game warden of your planned destination. He is your friend. Get his name and phone number and post them in camp. If a companion is lost, notify the warden immediately.

If you become lost: Don't rush. Sit down and think it over. If still confused and you have been out but a short time, remain there, especially if others know your approximate location.

If you have been out a long time, look for an open space. The shore of a lake, a big meadow, or the top of a high hill, are good in the order given.

No healthy animal in the Maine woods will harm you, but rabies exists and should be kept in mind.

Build a fire, collect lots of dry wood, keep the fire going. Pile green boughs on it to make a smoke signal. Wear some hunter orange clothing — easiest to spot from an aircraft.

You can live for days without food if you conserve your energy. Keep warm, keep calm. Make the woods work for you. Keep that smoke signal going. Our warden planes will spot it and find you.

regulations. The commissioner may promulgate specific regulations regarding falconry and may issue licenses for practicing falconry. The license fee is \$10; license will not be issued unless all requirements of the U.S. Bureau of Sport Fisheries and Wildlife have been met.

Properly licensed persons engaged in falconry must also have a valid hunting license and are subject to all regulations regarding seasons and bag limits. The commissioner shall revoke the falconry license of any person convicted of violating any provisions of chapters 301 - 335.

[Sec. 2467 condensed]. **Hunting of moose and caribou.** No person shall hunt, kill, or have in his possession any caribou or moose, or parts thereof; no person who has legally killed a caribou or moose beyond the limits of this state shall have in his possession or import such animal or parts thereof, into this state, unless he has obtained a permit from the commissioner to import for the purpose of consumption or for mounting, but not for sale.

Possession of caribou or moose, or parts thereof, without a permit as set out in this section, or after such permit has expired, shall be prima facie evidence of a violation of this section.

HUNTING WITH BOW AND ARROW [Chapter 321]

[Sec. 2501 condensed]. **Open season.**

There shall be an open season from the first Monday in October to the beginning of the regular deer season for the purpose of hunting deer with bow and arrow only, except that on the Island of Islesboro in Waldo County there shall be an open season for hunting deer with bow and arrow during the months of October and November of each calendar year. During the month of October any person hunting deer on said island shall be licensed as provided in section 2502. During the month of November any person hunting deer on said island shall be licensed in accordance with section 2401. See also section 2353.

[Sec. 2502 condensed]. **Licenses; tag.**

Archery licenses shall also permit the hunting of such wild birds and animals which can be legally hunted during the special archery season in each zone.

Archery deer tags shall be issued for use in the same manner as regular deer tags. If a person does take a deer with bow and arrow during the special season provided in section 2501, he is precluded from further hunting for deer during that year. If a person does not take a deer with a bow and arrow during the special season, he is not precluded from obtaining a hunting license for the regular open season.

Section 2401, Subsection 1, shall not apply to archery licenses. No resident under the age of 10 years and no nonresident under the age of 12 years shall hunt with bow and arrow at any time. Any resident between the ages of 10 and 16 and any nonresident between the ages of 12 and 16, who hunts deer under the provisions of section 2501, shall purchase an archery license with the written consent of parent or guardian and shall be accompanied at all times while hunting by parent or guardian or an adult approved by parent or guardian.

Sec. 2503. Equipment. Deer may be taken under the provisions of sections 2501 to 2505 only means of hand bow and broad head arrow. The use of crossbow or set bow is prohibited. The strength of a bow shall be determined by flight of an arrow, each bow to shoot an arrow at least 150 yards. The arrow head shall not be less than 7/8 inch in width. No person shall use arrows with either poisonous or explosive tips. No person shall carry firearms of any kind while hunting with bow and arrow.

Sec. 2504. Application. Except as provided in sections 2501 to 2505 the provisions of this chapter (321) relating to deer shall be applicable to the taking of deer with bow and arrow.

Sec. 2505. Registration. All deer killed under the provisions of sections 2501 to 2505 shall be inspected by a warden before being registered under the provisions of section 2355. If the warden finds the deer to have been legally killed by bow and arrow he shall approve the deer for registration. If it appears to the warden that the deer was not legally killed with bow and arrow he shall seize the deer and prosecute the offender.

Sec. 2701. The commissioner may issue a permit to any licensed trapper to take not more than 20 pounds of eels annually for use in baiting traps.

[Sec. 2801 condensed]. **Sale of deer, hares, or rabbits.** No person shall at any time buy, sell, or offer for sale or barter any deer, or part thereof, except that the heads and hides thereof may be sold to any properly licensed taxidermist for the purpose of preserving and mounting as provided in section 4351 of Chapter 65, Title 32, and to any dealer as provided in section 4352 of Chapter 65, Title 12. Whoever aids in buying, selling, or offering for sale or barter any deer, or part thereof, or counsels or otherwise aids in procuring the same shall be punished in the manner prescribed for the punishment of the principal offender. Provided, however, that any agent of the commissioner may buy or sell deer, or parts thereof, for use as evidence in prosecution of a violation of chapters 301 to 335.

It shall be unlawful for any person to buy, sell, or offer for sale any wild hares or wild rabbits.

Any person convicted of violating any of the provisions of this section shall be punished in accordance with the penalty provided in section 2455.

Sec. 2802. Transportation of game. No person shall transport or offer for transportation, nor shall any person or carrier accept for transportation or transport, any game animal or bird, or parts thereof, except as provided in chapters 301 to 335.

Any resident may transport to his home any game which he has killed and which is legally in his possession, provided he shall have been properly licensed and has met all other requirements of chapters 301 to 335.

Any nonresident may transport or have transported to his home by a common carrier any game which he has killed and which is legally in his possession, provided he shall have been properly licensed and has met all other requirements of chapters 301 to 335.

No person or carrier shall transport any game bird or animal, or parts thereof, in closed season except that any person who has killed said game in open season shall have a reasonable time after the beginning of the closed season in which to transport said game to his home.

All game transported or offered for transportation shall be open to view, and accompanied by the person who killed said game. Game transported for nonresidents by common carrier need not be accompanied by the owner if all other requirements of chapters 301 to 335 are met. Any carrier accepting any game for transportation shall be satisfied that the person presenting said game for shipment is the person to whom the hunter's license offered for inspection was issued and shall securely affix any tags and such other identification and make such returns to the commissioner as may be required by chapters 301 to 335. Any wild bird or animal, or part thereof, found in possession of any person in violation of this chapter is subject to seizure and shall be seized and become the property of the state.

It shall be unlawful for any person or corporation to transport or offer for transportation at any time any wild hares or rabbits destined beyond the limits of this state.

It shall be unlawful for any person to have in possession or transport at any time any wild hares or rabbits taken during the closed season or by any method or with any device prohibited by section 2451.

The hunting license of any nonresident shall entitle him to have game, including wild hares and rabbits which he has legally killed, transported to his home without further fee to the state.

Sec. 2851. Breeders; license. (A \$10 license is required for breeding, rearing, or keeping game birds. A copy of Section 2851 is available by writing to the Department office, Augusta.)

[Sec. 2901 condensed]. **Bounty on bobcat.** There shall be a bounty of \$15 for every bobcat which is killed within the state. No bounty shall be paid unless the claimant, within 10 days after he has killed such animal, exhibits to the warden or warden supervisor in whose district the animal was killed the entire skin thereof, with the ears, nose, and tail thereon in as perfect a state as when killed, except for natural decay, and signs a certificate under oath stating that he killed such animal and the time and place within the state. The warden or supervisor shall cut off the entire tail and destroy it. The claimant shall forward the claimant's certificate to the commissioner.

Sec. 2951. Disposal of deer. The resident owner of every motor vehicle which has been substantially damaged by collision with a deer shall, within 24 hours thereafter, report the accident to a game warden. The warden shall investigate, and if he finds the damage has been done as alleged, he shall give a certificate to such person entitling such person to the ownership of the carcass to be possessed and consumed only within the immediate family of the owner of said vehicle.

Sec. 2952. No payments for motor vehicle damage. No claim for damages to motor vehicles by a protected wild animal or wild bird shall be paid by the state.

Sec. 2953. Shooting human being while hunting; penalty. Whoever, while on a hunting trip or in the pursuit of wild game or game birds, negligently or carelessly shoots and wounds or kills any human being, shall be punished by a fine of not more than \$1,000 or by imprisonment for not more than 11 months. The commissioner, upon receiving a written report of the wounding or killing of a human being, may revoke or suspend the current hunting license or the right to hunt or the right to obtain a hunting license, for a period not to exceed 5 years, of any person who, while on a hunting trip or in the pursuit of wild game or game birds, is alleged to have shot and wounded or killed said human being. Concurrent with the notice of the revocation or suspension of the said person's current hunting license or right to hunt or right to obtain a hunting license, the commissioner shall send to the person accused of any such offense, a written notice by certified mail or registered mail, to the address given by such person in his application for a hunting license, of a hearing to be held in not less than 10 days, which notice shall contain the time and place of hearing and a brief statement of the facts alleged to have happened. After hearing, the commissioner may affirm or modify the revocation or suspension of the hunting license for the current year of such person and may also deny to such person the right to hunt or the right to obtain a hunting license for a period not to exceed 5 years. A person aggrieved by the commissioner's decision may appeal to the superior court in the county where the hearing is held, by filing a complaint with the clerk of courts and sending a copy of the complaint to the commissioner. The complaint shall be filed within 30 days of the commissioner's decision. The court shall review the hearing record and may affirm, reverse, or modify the commissioner's decision.

Any such person whose hunting license has been revoked or suspended, or whose right to hunt or the right to obtain a hunting license for a period not to exceed 5 years has been denied, may after the expiration of one year from the date of such revocation or suspension, petition the commissioner for restoration of his privilege to procure such a license. The commissioner, after hearing and after his determination that public safety will not be endangered by the restoration to the petitioner of such privilege, may restore the same. If the commissioner disallows such a petition and thereby refuses to grant the restoration of such privilege, the petitioner may appeal to the commissioner's advisory council which, after hearing on said petition, may allow the same and restore such privilege.

Sec. 2953-A Shooting domestic animals or birds while hunting; penalty. Whoever, while on a hunting trip or in the pursuit of wild game or game birds, negligently or carelessly or willfully shoots and wounds or kills any domestic animals or birds, shall be subject to the penalties provided in section 3060. The commissioner, upon receiving a written note of the final disposition, shall revoke or suspend the current license or the right to hunt or the right to obtain a hunting license for a period not less than one year after such final disposition.

Sec. 2954. Aiding injured persons; reporting hunting accidents. Any person who knows that he has inflicted injury or has reason to know that he may have inflicted injury to another person by the use of firearms or bow and arrow shall make himself known to the victim and shall render such first aid and assistance as he is capable of rendering under the circumstances and shall thereupon give notice of the event by the quickest means to a state police officer, sheriff, game warden, or other law enforcement officer nearest the place where the event occurred.

Any person violating this section shall, upon conviction, be punished by a fine of not more than \$1,000 or imprisonment for not more than 11 months, or by both, and in addition thereto shall be denied the right to hunt or trap anywhere in the State of Maine with or without license for a period of 10 years.

Sec. 3051. Vehicles must stop on signal.

1. Authority of law enforcement officers. Any officer authorized to enforce the provisions of chapters 301 to 335, if in uniform and if he has reason to believe that a violation of any of such provisions has occurred or is taking place, may at any time stop any motor vehicle, boat, vessel, airplane, or conveyance of any kind for the purpose of arresting or questioning the operator or occupant thereof, or for the purpose of searching the vehicle.

2. Penalty. Any operator who fails or refuses to stop such conveyance immediately upon request or signal of any officer, in uniform, whose duty it is to enforce the inland fish and game laws, shall be punished by a fine of not less than \$100 or by not more than \$400 or by imprisonment for not more than 90 days, or by both.

Sec. 3052. Arrest; jurisdiction; false personation. Any officer authorized to enforce the inland fish and game laws may arrest any violator of said laws or any person who impersonates or represents himself as being a game warden.

[Sec. 3060 condensed.] **Penalties.** Whoever violates any of the provisions of chapters 301 to 335 and Title 7, Chapter 707, and Title 7, section 3602, and Title 32, Chapter 65, or rules and regulations promulgated thereunder, excepting only those for the violation of which specific penalties have been provided, shall be punished by a fine of not less than \$20 nor more than \$500 and costs, or by imprisonment for not more than 90 days, or by both, except as hereafter noted:

1. Any resident under 16 years of age may trap for any wild animal, except beaver, in the municipalities without a trapping license. In the unorganized townships a license is required.
